Subject: Supply of IT equipment and document management system to the National Employment Service (NES)

Dear Mr Bogicevic,

Dear Mr Petrovic,

Thank you for your letter on the above subject received at the EU Delegation on 24 November 2014.

We have been in contact with the National Employment Service on the above subject. Please be informed that the NES has confirmed to the EUD that the supplies in question were delivered and installed in accordance with the technical specifications and other applicable requirements. The NES indicated, however, that there was a problem of incompatibility of the delivered software with other existing software in the NES. We plan to seek further clarifications regarding sustainability of this EU funded project.

We would also like to draw your attention to the fact that the statements made in your communication cannot be found in the letter of the NES which you forwarded to us.

Yours sincerely,

Michael Davenport
Ambassador
